## WE NEED YOUR HELP!

Hello, Oki, Tansi, Amba'wastitch, Danit'ada, Greetings from Sunrise,

Our city, our province, all of our Nation is in the grips of deadly crises that is taking the lives of our youth and we need your help to reach as many people as we can with a **solution** before it is too late!

The current **opioid crisis** has reached **epidemic proportions** and **Sunrise Native Addictions Services** is one of our Nations agencies that is offering a solution to those that are suffering in the despair of this crisis. We employ the 12 steps and First Nations culture as solution focused treatment to teach those suffering with addiction **from all walks of life**, a new way to live, free from the pain, terror and misery of addiction so they can become active, productive members of society.

There are few people in our city that haven't in some way been touched by this crises, through a loved one, a friend, a fellow employee or simply by witnessing the suffering of all our fellow Calgarians. It is time for all Nations to stand together, to become part of the solution and healing for all of our people.

We need your help! We are looking for **caring organizations** that will be at the **spearhead of the recovery effort** in our city and join us as **investors**, allowing us to further our ability to combat the deadly crises we are facing.

We ask that these organizations make **any donation they can** so we, as a **non-profit addictions treatment center that offers recovery to all people**, can continue to further our services and reach more of those in our city, our province, and our country that are in need of help.

We would like to engage and encourage all organizations in Calgary to join us in the solution to this problem, and stand side by side, hand in hand with Sunrise to offer a solution.

As a thank you, Sunrise will humbly, and with honor, display your organizations name and logo on our marketing and media material, our web based media and our social media to brand your company along with Sunrise as being at the forefront of the both the recovery effort and the healing of all Nations in our country.

Additionally, we are excited to extend an invitation to our investors to join us in our community round table discussions about the solution to the current crises facing our youth, and all the people of our city.

Through your contributions, we can further enhance our recovery program and offer additional outreach services to the people of our wonderful city and surrounding area. Your valuable funds will directly result in more and more of those suffering finding a new way of life that will better not just themselves, but all of our society. Please, stand with us in this battle.

We humbly request your help us to save as many lives as we can and contact our Marketing Coordinator, Devin Rued-Fraser via phone at 403-261-7921 or email at [druedfraser@nass.ca](mailto:druedfraser@nass.ca)

Thank you for taking the time to consider and as always, we are here should you know anyone who needs help to find a new way of life, free from drugs and alcohol.

With gratitude and hope,

Leslie Big Bull  
Executive Director
